

BEFORE THE  
POSTAL REGULATORY COMMISSION  
WASHINGTON, D.C. 20268-0001

MAIL PROCESSING NETWORK RATIONALIZATION  
SERVICE CHANGES, 2011

Docket No. N2012-1

**UNITED STATES POSTAL SERVICE RESPONSE  
TO AMERICAN POSTAL WORKERS UNION, AFL-CIO INTERROGATORIES  
(APWU/USPS—18-20)  
(June 21, 2012)**

The United States Postal Service files its responses to the above-listed interrogatories of the American Postal Workers Union, AFL-CIO, dated March 27, 2012. Each interrogatory is stated verbatim and followed by the response.

Respectfully submitted,

UNITED STATES POSTAL SERVICE

By its attorneys:

Anthony F. Alverno  
Chief Counsel  
Global Business & Service Development

James M. Mecone

475 L'Enfant Plaza West, S.W.  
Washington, D.C. 20260  
(202) 268-6525; Fax -5402

RESPONSE OF UNITED STATES POSTAL SERVICE  
TO AMERICAN POSTAL WORKERS UNION, AFL-CIO INTERROGATORY

**APWU/USPS-18** Please refer to Mr. Williams' response to APWU/USPS-T1-33(b). In his response, Mr. Williams presents a table representing current and potential distributions by delivery day (transit days) for the package services category. BPM flats, BPM parcels, Media Mail/Library, and Parcel Post are presented. For each subcategory depicted, the data indicates an increase in volume delivered on day two once the proposed network changes are implemented.

- a) Please describe how the proposed network changes could result in the potential for an overall increase in the proportion of volume delivered in two days.
- b) What is the source of both the current and potential figures in the chart?
- c) What are the assumptions, if any, and the associated methodology used to project the potential distribution?

**RESPONSE**

- a) The potential network changes would result in consolidation of volume into fewer facilities. Because a component of additional volume at each remaining facility is turnaround mail with a 2-day standard, the 2-day volume increases in the potential network.
- b) Origin Destination Information System (ODIS) for fiscal year 2010 is the volume source. The Service Standards Directory (SSD) is the source of current service standards. The ZIP mappings from Postal Service Library Reference USPS-LR-N2012-1/17 were used to derive the potential service standards.
- c) The proposed (December 15, 2011) service standard business rules were used to derive the potential volume distributions. It was assumed that current mail volumes would retain their origin-destination patterns in the future network if the proposed service standards were adopted.

RESPONSE OF UNITED STATES POSTAL SERVICE  
TO AMERICAN POSTAL WORKERS UNION, AFL-CIO INTERROGATORY

**APWU/USPS-19.** Please refer to Mr. Williams' response to APWU/USPS-T1-34. Mr. Williams indicates in this response that "network changes may result in changes in the expected delivery day within each range for specific origin-destination Zip Code pairs."

He further indicates that "the Postal Service is currently evaluating new service areas and assessing any potential changes required for Express Mail and Priority Mail service standards."

a) When will the referenced evaluation be complete?

b) Once such evaluation is complete, please respond to the original interrogatory APWU/USPS-T1-33 based upon the operating plans developed to support the planned network changes instead of service standards or forecasts.

**RESPONSE**

a) The service standard day ranges for Express Mail and Priority Mail will not change as a result of the service standard changes proposed in this docket.

However, the changes proposed in this docket may result in changes to the expected delivery day within each range for specific origin-destination ZIP Code pairs. The Postal Service is in the process of evaluating new service areas and assessing any potential changes required for Express Mail and Priority Mail service standards. This evaluation will continue throughout the implementation process and is not expected to be completed before briefs are filed in this docket.

b) Not applicable.

RESPONSE OF UNITED STATES POSTAL SERVICE  
TO AMERICAN POSTAL WORKERS UNION, AFL-CIO INTERROGATORY

**APWU/USPS -20** The following list of facilities is contained in USPS-LR-N2012-1/17 and USPS-LR-N2012-1/34 sponsored by witness Rosenberg (USPS-T-3) and contains the notation that the facilities were open at the time of Ms. Rosenberg's analysis. Many of these facilities do not appear in USPS-LR-N2012-1/57 which purports to identify all the mail processing facilities in the network on September 15, 2011. Only a few of these facilities are on the February 22, 2012 list of facilities approved for consolidation.

- a) Please indicate which of these facilities were open and processing mail on September 15, 2011.
- b) Please indicate which of these facilities currently remain open and is processing mail.
- c) Please list the types of mail processing equipment used in these facilities, e.g., CSBCS, DBCS.
- d) Please indicate which of these facilities are considered mail processing facilities or locations. If not mail processing facilities, what type of facilities are they?
- e) Please indicate which of these facilities are being studied or have been approved for consolidation as a result of the current Network Rationalization Plan. If there is a separate initiative underway to rationalize these facilities please identify the initiative and the time frame of that initiative.
- f) For any of these facilities identified for consolidation will an AMP study be conducted? If an AMP study will not be conducted for any of these facilities identified for consolidation, please explain why a study will not be performed.
- g) If subject to consolidation without an AMP requirement, how does the Postal Service document the business case for the consolidation? What is the approval process for the consolidation of facilities in the absence of an AMP study?
- h) For any of these facilities being studied or slated for closing and/or consolidation has or will the Postal Service give public notice and take community and mailer input before making final decisions? If so, please describe the public notice and input process or these facilities. If public notice and the opportunity to provide input on the consolidation and/or closure have not and will not be provided please explain why this is not being done for these facilities.

**RESPONSE**

a-e) See attachment.

f-h) Not applicable. Each facility that appears on the list and is currently identified as a candidate for consolidation has an approved AMP study.
